Environmental Policy

Trans-Tronic Ltd places concern for the environment as an important part of our business operation.

This policy aims to meet all relevant regulatory requirements and to minimise environmental effects caused as a result of our business.

We are committed to achieving the objectives of this policy in line with our customer requirements and relevant legislation.

Trans-Tronic Ltd has the following environmental aims and objectives:-

- Comply with all relevant legislation and regulations.
- Minimise waste
- Use all resources (raw materials, energy, labour, etc) as efficiently as possible.
- Promote awareness of the environment in all areas
- Always consider environmental impact when designing new products and processes.
- Minimise the use of environmentally sensitive materials.
- Recycle and re-use wherever possible
- Encourage our customers and suppliers to recognise and share our concern for the environment.
- Continually seek improvement in our environmental performance.

This policy will be reviewed periodically with respect to legal and business developments and revised as necessary.

Responsibility for implementation of this policy rests with the Managing Director.

Signed: David Goater
